## SKILLS

- **Languages:** HTML, CSS, Java, C++
- **Frameworks & Libraries:** React.js, HTML, CSS
- **Core Subjects:** Data Structures and Algorithms, OOPs, DBMS, Operating Systems
- **Soft Skills:** Problem-Solving, Team Collaboration, Project Management

## PROJECTS

Path Finding Visualizer | HTML, CSS, JavaScript | Algorithm: Dijkstra's Algorithm Jun 2026

- Engineered a console-based routing simulator that models real-world navigation as a weighted-graph problem, replicating how mapping applications compute optimal routes under changing road conditions.
- Implemented Dijkstra's Algorithm from the ground up with a custom min-heap comparator, achieving  $O((V+E) \log V)$  shortest-path computation across a 10x10 weighted grid, and built a recursive-division maze generator paired with an automated connectivity-repair pass to guarantee a solvable maze every run.
- Delivered a fully interactive visualization tool featuring live traffic simulation, dynamic start/goal repositioning, and real-time animated pathfinding, showcasing applied graph theory and heap-based algorithm design.

CryptoFolio.AI | Python, Flask, Gemini API, JavaScript Mar 2026

- Built an AI-powered cryptocurrency portfolio advisor that analyzes users' crypto holdings, surfaces market trends, and delivers concise, actionable investment insights.
- Architected a full-stack web application using Python, Flask, HTML, CSS, JavaScript, the Gemini API, Flask-CORS, and python-dotenv, incorporating automated portfolio analysis, a domain-aware AI chatbot with query filtering, and personalized recommendations driven by live user portfolio data.
- Delivered an interactive portfolio-management platform that fuses AI-driven financial insights with real-time user interaction, bridging conversational AI and practical investment decision-making.

## TRAINING

Centre for Professional Enhancement, Lovely Professional University Jun 2026 - Jul 2026

Summer Training - Basics of Data Structures & Algorithms (DSA)

- Built a strong foundation in core data structures, including arrays, linked lists, stacks, queues, and trees.
- Studied core searching, sorting, and algorithmic problem-solving techniques.
- Reinforced DSA concepts through hands-on programming exercises and problem-solving practice, earning an A grade.

## CERTIFICATIONS

- Oracle Cloud Infrastructure Certified AI Foundations Associate ([Oracle](#)) Aug 2026
- Oracle AI Database Certified Foundations Associate ([Oracle](#)) Aug 2026

## EDUCATION

Lovely Professional University Phagwara, Punjab

- Bachelor of Technology in Computer Science and Engineering; CGPA: 7.00 Aug 2024 - Present

Vivekanand Sr Sec School

- 10th (Matriculation) Mar 2020 - May 2021
- Percentage: 94%
- 12th (Intermediate) Mar 2022 - May 2023
- Percentage: 82.4%
